

# Advice Bot Design

Bijan Massoumi

March 8, 2017

## **Bot Features still needed to be added:**

Pen Pal features

adding questionID to HasAnswered and make it so you dont get served the same question twice

adding blocking

adding the ability to cycle a question you dont want to answer

adding richer user feedback

incrementing timesDistributed whenever a question is served

## **Database:**

User(facebookID,numQuestions,numAsnwrs,numBans)

Questions(facebookID, questionText, questionIndex,timesDistributed,questionID)

CurrentlyAnswering(aID,qID)

HasAnswered(aID,questionID)

PenPals(aID,qID,aPenName,qPenName)

UserBlackList(UserID,bannedID)

Banned(facebookID, length)

## **modules:**

Databse API

Language Processer

Main app file

globals
